2. Navigate settings by clicking on your profile picture on desktop, or the hamburger menu on mobile.

3. Click on the edit profile icon on the top right-hand side, then click on the “Delete account” button.

4. Enter the OTP code sent to your email address to permanently delete your account.

The screenshot shows a web browser window with the SEEYOU logo at the top, which includes the tagline 'The Video Conference Aggregator'. Below the logo, the heading 'Verify your email to delete your account' is displayed. Underneath, a message states 'We have sent you a code to twana@seeyou.eu' followed by 'Please insert below'. There are six input fields for the code; the first field contains a vertical line, while the others are empty. Below the input fields is a grey 'Verify' button. At the bottom of the form, there are two links: 'Resend code' in blue and 'Cancel' in grey.

5. After entering the OTP code, click “Delete My Account”. Note that the account can not be restored once deleted.

This screenshot shows the same SEEYOU web interface, but the verification step is complete. The heading 'Verify your email to delete your account' remains. The message 'We have sent you a code to twana@seeyou.eu' is still present. However, the input fields now contain the code '246108'. The 'Verify' button has been replaced by a prominent red button labeled 'Delete My Account'. The 'Cancel' link remains at the bottom.

6. Done, your SEEYOU account is now completely removed.
